

Information for Potential New Suppliers

We love working with new and local suppliers - it's at the core of what we do! Since we are a small business we ask that you follow this process in promoting your business/product to our inventory team:

- * Email Product Sell Sheet, which should include info on skus, cost, SRP, shelf-life, lead time, distribution outlets
- * Samples may be left at the store or you can coordinate that drop-off with the inventory team via email
